C. BOW BELLS CROSSES

- C. Mossae Wagneri x C. Intertexta v. Juliette x C. Bob Betts v. Jeanette (A.M., A.O.S.)

Both parents were Easter & Mother's Day blooming plants and should give superb flowers for spring.

- C. (Dusseldorfi Undine x C. Joan Manda) x C. Bob Betts, v. Jeanette (A.M., A.O.S.)

The Dusseldorfi Undine used was an extremely hard, leathery, pure white, with no color in the throat, blooming for Easter and Mother's Day and also again in September, each year, blooming twice yearly.

Either of the above we have in 1½ in. pots at \$1.50 each

- C. Trianae v. "Broomhill" x C. Bow Bells, F.C.C., A.O.S.
This is a strong, free grower, flowers from fall to spring superb quality.

2¼ in. pots—\$3.00 ea. 3 in. pots—\$5.00 ea.

C. JOYCE HANNINGTON CROSSES

- C. Barbara Billingsly x C. Joyce Hannington

Both parents had blooms of special merit, blooming period, fall and spring.

1½ in. pots—\$1.50 ea. 2¼ in. pots—\$3.00 ea.
3 in pots—\$5.00 ea.

- C. Joyce Hannington x C. Bobby Jewell (This has been named C. Hannwell)

This is a round, full, perfect shape flower of extremely heavy texture, outlasting any other, a month or more. This is as good as any in existence, barring none.

2¼ in.—\$5.00 3 in.—\$10.00 4 in.—\$15.00
5 & 5½ in., blooming size—\$50.00 ea.

YELLOW & BRONZE CROSSES

- C. Mossae Wagneri x L. Tenebrosa (Leathery bronze yellow with solid red lip)

Both parents bloom April, May, June, and should give yellow and bronze flowers from April thru June.

- L. Tenebrosa x L. Tenebrosa—Yellow bronze with red lip. Spring.

Either of the above in 1½ in pots @ \$1.50 ea.

- L. C. New York x L.C. Luminosa Aurea—Yellow with red lip, fall and winter.

C. King George x L.C. Gorse—Golden yellow, cherry red lip, gold stripes, fall.

C. (Veriflora x C. Maggie Raphael) x C. Woltho—large, medium, deep, striped lip.

NOVELTY SPECIE HYBRIDS

L. TENEBROSA X C. GUTTATA V. LEOPOLDII

This has bloomed for us, and we have made a re-sowing of the original seed pod, the seed having kept in good condition for seven years. The flowers come from August to December, from two to eight flowers on a stem, colors ranging from olive green, yellow bronze, to a deep mahogany red. The flowers are extra heavy and leathery. A good number of this cross should be in every collection.

Community pots (about 20 plants in each 2½ in pot—\$10.00			
1½ in. pots	\$ 1.50	4 in. pots (will bloom)	\$10.
2¼ in. pots	3.00	5 in pots (bloom. size)	15.
3 in. pots	5.00	6 in pots	25.

C. Barbara Billingsly x Laelia Cinnabarrina

This has bloomed for us, a beautiful thing, entirely different from the general run of laelias and cattleyeas. It has several on a spray, the flower is from four to six inches across, narrow sepals and petals, star-shaped, the entire flower an even cinnabar red color, the lip red, of the L.Cinnabarrina type only five times as large.

C. Barbara Billingsly x Laelia Harprophylla

This is similar to the Cinnabarrina cross only the Harprophylla makes the flower more round and full. The color is a bright glowing deep orange, the color of a dyed orange. The flower will stay in bloom in excellent condition a month or more.

C. Amethystaglossa x Self.

The parent plant had twenty-five flowers on a stem and received a cultural certificate from the American Orchid Society. The flowers are four to five inches across, hard and leathery, white, spotted a bright amethyst over the entire flower, amethyst colored spade lip.
